

Statement

I herewith testify that I was enrolled in the PhD program of the **University of Graz** from **2005 to 2008** in the **Geography department** and that I had to interrupt my studies before completion due to severe illness.

My PhD subject was:

“An Organic Holistic Management Approach
Succeeding in the ecological economy of tomorrow
A comparative study of small and medium-sized companies in Europe”

Nevertheless, I am considering taking up my studies again in the future.

Sincerely,

Gabriele Bitter
